

B&B & Food at Gränsfors 2012

If you want to stay with us for a while – maybe you are attending a course – you can choose from these alternatives.

A. We have got three rooms on the upper floor of the restaurant Augusta's. One of them has got a slightly bigger bed. Loving and willing you can share it. Bathroom with shower is shared. There is a kitchenette and a couch with a TV. Downstairs meals are served.

B. In Dammstugan – in the end of the old road (gamla vägen) – we have three rooms. Two are single rooms; one is bigger with space for two to four beds. The Dammstugan also has a bathroom with shower, lounge with TV and a kitchen. All these areas are shared.

C. At the log building school we have four log houses. They have two to four beds, electricity but no water. A service house has a shared kitchen. New this year is a separate house with toilet and showers. By the cabins there is a sauna – of course heated by wood and with possibility of swimming in the creek. Bring a torch if you are visiting late summer!

D. You can come with your own caravan or tent. You will place it outside Augusta's. Tents are put up on the other side of the creek. Electricity, showers and toilets are available.
